COACHING FRAMEWORK

JUNIOR SOFT BALL CRICKET FOUNDATION COACHING COURSE

This course will give you the knowledge you need to create safe, positive learning environments for your team. As you'll see below, there are a three 'core modules' as part of this course. These are the modules that we believe are critical for coaches to learn, to help you be a great coach for your team. If you want to receive a 'foundation course' certificate, you need to complete these core modules.

There are also some extension modules available for you to complete if you would like to broaden your coaching knowledge.

We will add extension modules periodically to this course as a way to keep our coaching content relevant, so keep an eye on the NZC coaching website.
