SKILL FOCUS

• Batting

COMPLEXITY

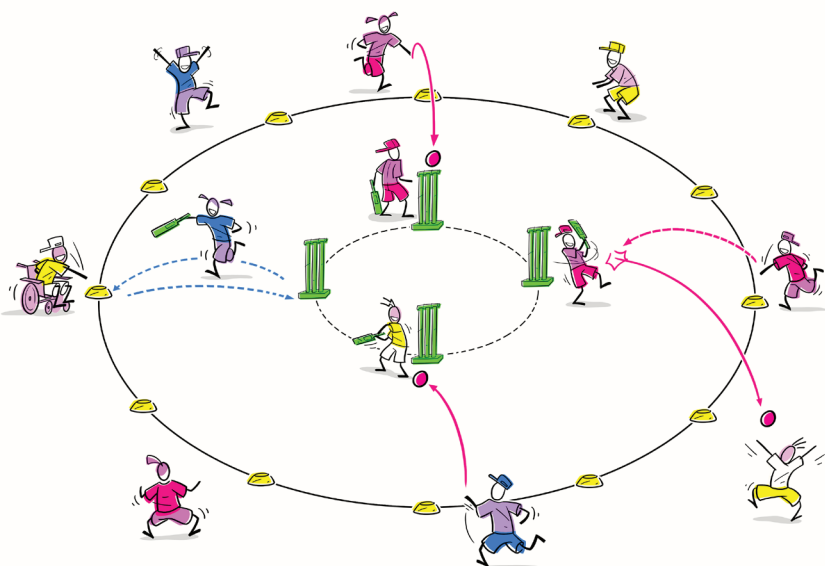

WHAT OTHER SKILLS COULD BE INVOLVED

Running, Underarm Throwing, Bowling, Catching & Perception Skills.

THINK QUICK — WHAT TO LOOK OUT FOR

- Encourage Smashies to say "BOUNCE" when the ball bounces and "HIT" when it hits the bat.
- Encourage Smashies to consider how to hit the balls to score points.
- Encourage Smashies to be watching at all times as balls may be hit from other batters.

SET UP

LET'S PLAY

- Start with a circle of cones (planet) in the middle of the game arena, with four sets of wickets positioned around the 'planet'.
- Divide Smashies into three even groups of four (four batters, four bowlers and four fielders).
- Bowlers underarm throw or bowl the ball, trying to make sure it only bounces once before getting to the batter.
- Batters hit the ball and run back and forth (from the bowlers cone to the wickets) to score points, they keep running until the ball is returned into the centre planet.
- Once the ball is bowled the bowler runs to the centre to be the wicketkeeper and helps with the return of the balls.
- Fielders must grab one ball (which is hit by any batter) and return the ball to the planet.
- Smashies swap roles after each ball and continue to rotate.
